Visual Arts

Learning in Visual Arts involves all students making and responding to artworks, drawing on the world as a source of ideas. One of our strategic goals is for all students engaging with visual arts making, to develop confidence, curiosity, imagination and enjoyment.

Our Visual Arts program is divided into four themes over the duration of the school year.

Our theme in Term One involved the students ‘Making Faces’. Each child made artworks in different forms, expressing their observations, using various techniques and processes.

Terms two and three were devoted to cultural studies. We examined the traditional artworks of Indigenous Australians and the Asian cultures of India, Mynamar, China, Japan and Thailand. All students developed a respect for and acknowledgment of, the diverse roles, innovations, traditions, histories and cultures of these many artists.

Term four was a study of ‘Birds’. Within this theme, students developed their knowledge, understanding and skills as they learnt and applied techniques and processes using various materials to achieve their intentions in 2D and 3D forms.

All students’ artworks are displayed in and around the school grounds, allowing the wider community to enjoy and appreciate their wonderful efforts.
